**1987-88**

**Catalogue No. 6301.3**

## ADDITIONAL DATA AVAILABLE ON REQUEST

The ABS offers a range of unpublished data from the Employment Injuries collection upon request.

Appendix A specifies the data items processed. Appendix B lists additional tabulations produced but not published.

## OTHER HEALTH STATISTICS

The ABS collects a wide range of data on health. Three of the areas on which both published and unpublished data are available are:

### HOSPITAL MORBIDITY (*Inpatient separations*)

#### *Published data*

Principal condition treated (numbers and rates) by age group and sex, total and average days of stay (public/private hospitals) and selected durations of stay.

External cause (type of accident etc.) by age group and sex.

Principal operation performed by age group and sex.

#### *Unpublished data*

Detailed classifications of principal condition treated and external causes by sex, age, total days of stay and deaths in public and private hospitals; detailed classifications of principal operation performed by sex, age and principal condition treated; place of usual residence (statistical local areas).

### CAUSE OF DEATH

#### *Published data*

Causes of death by sex, age and statistical divisions.

Causes of perinatal deaths by sex, for both stillbirths and live births; age of mother, time of cessation of heartbeat, age at death, weight at birth, period of gestation and statistical divisions.

#### *Unpublished data*

Many of the above details are available at finer levels of classification than those published and a number of alternative cross-classifications are routinely produced. Cause of death by sex is also available for incorporated cities and towns, and numbers of stillbirths and live births are available for local government areas and statistical local areas of Brisbane City.

### HEALTH AND WELFARE ESTABLISHMENTS

#### *Published data*

Residential health and welfare establishments (hospitals, psychiatric institutions, nursing care homes, substitute family or home care establishments and establishments providing hostel care and accommodation only): numbers of establishments, beds, inpatients/residents, admissions and discharges; operating income, operating expenditure, staff by occupation group, nature of treatment by condition or category of patients, patients/residents by age group and sex related to population, summary data for statistical divisions.

Non-residential health services (outpatient centres, day centres and day hospitals and domiciliary nursing services): number of services rendered, types of services rendered, operating income and expenditure.

#### *Unpublished data*

The details above are also available for a more detailed dissection of types of establishments.

Order publications by completing and returning the order form at the end of this publication. Contact Keith Carter (Brisbane (07) 222 6054) if you require unpublished data or any additional information.

## SUMMARY OF FINDINGS

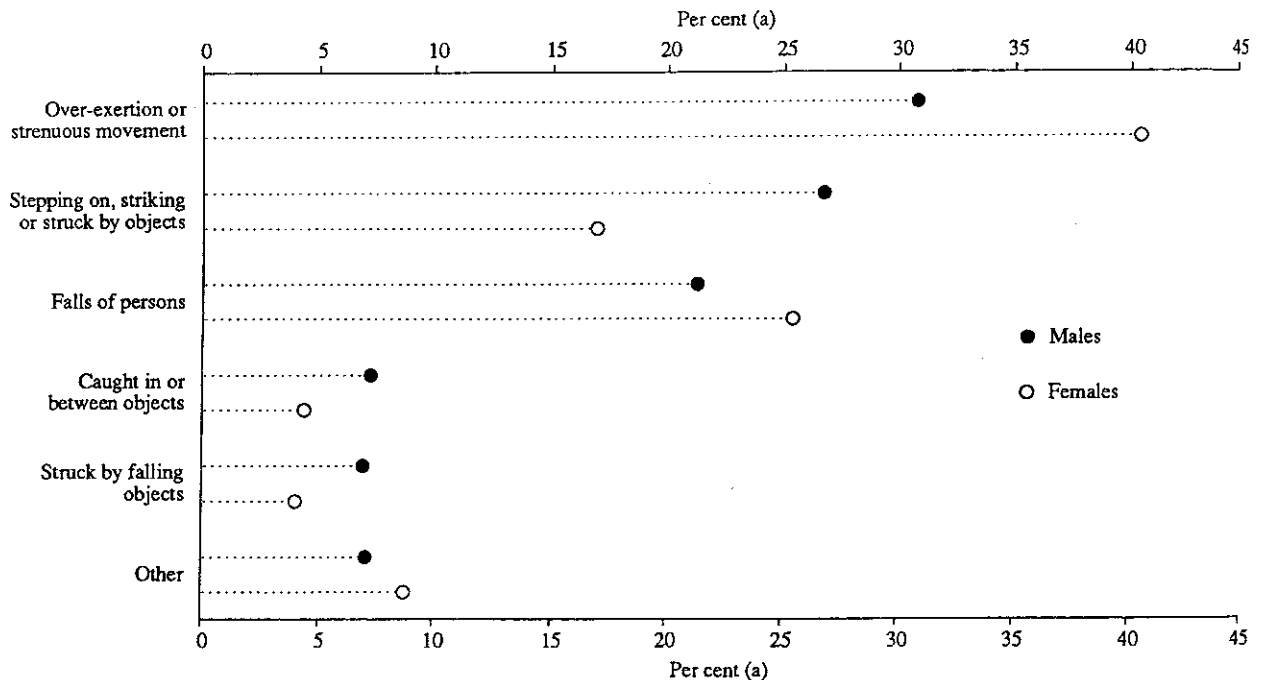

In 1987-88 there were 47,811 compensated employment injuries resulting in a temporary disability which caused an absence from work of one shift or more, in death or in a permanent disability. This was 4.8 per cent fewer than in 1986-87, continuing the downward trend of recent years. Of the 47,811 employment injuries in 1987-88, 43,197 (90.3 per cent) resulted from occupational injuries, 2,303 (4.8 per cent) from commuting injuries, 2,272 (4.8 per cent) from occupational diseases and 39 (0.1 per cent) from injuries sustained during recess periods.

### Occupational Injuries

In 1987-88, 55 occupational injuries resulted in death, a decrease on the 73 recorded for 1986-87. In contrast, the number of permanent disabilities caused by injuries increased 21.0 per cent to 721 in 1987-88. However, the vast majority of occupational injuries result in only temporary disability and the 42,421 cases in 1987-88 represented a 5.8 per cent decrease compared with the total for the previous year.

Almost a third of occupational injuries in 1987-88 were caused by over-exertion or strenuous movement with 25.0 per cent caused by stepping on, striking or being struck by objects and 22.0 per cent by falls of persons. The pattern differed somewhat between males and females with over-exertion or strenuous movement and falls being relatively more frequent for females.

DIAGRAM 1 - OCCUPATIONAL INJURIES: TYPE OF ACCIDENT, QUEENSLAND, 1987-88

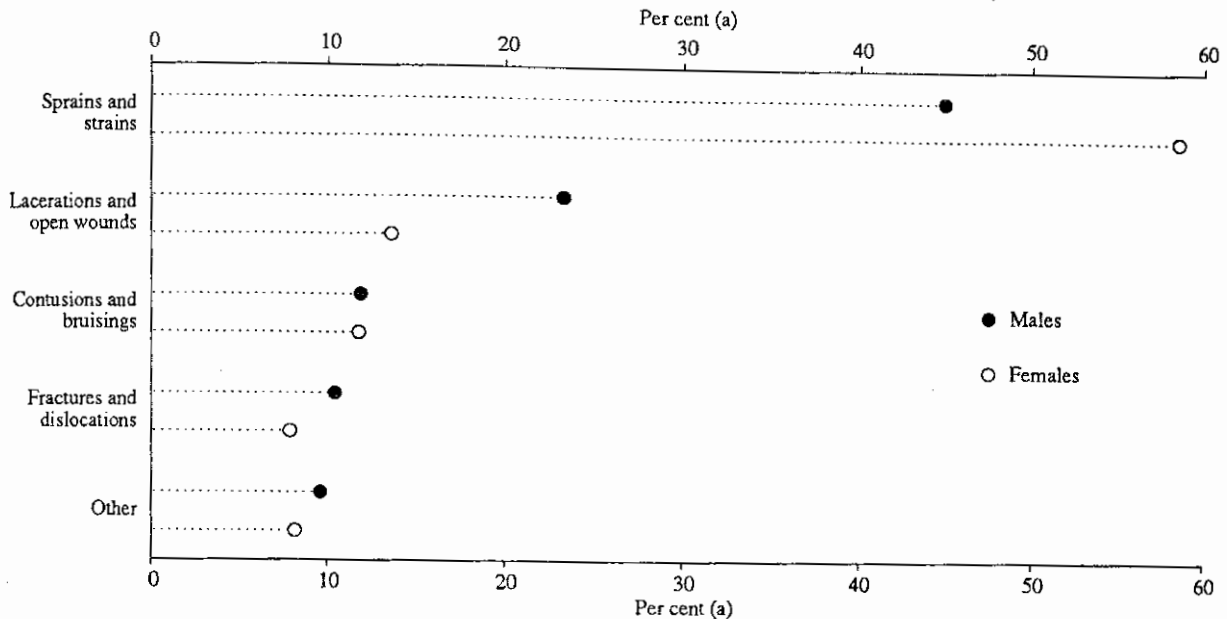

(a) Of total injuries for the sex indicated.

The most common nature of injury, accounting for 47.1 per cent of the total, was sprains and strains and two-thirds of these were caused by over-exertion or strenuous movement. Sprains and strains accounted for 58.5 per cent of female injuries and 44.9 per cent of male injuries. The next most common injury (21.6 per cent) was lacerations and open wounds, which was more common for males than for females.

Almost a third of occupational injuries in 1987-88 occurred in manufacturing establishments. The pattern among industries differs considerably between males and females. For males, the industry divisions with the most injuries were manufacturing (35.8 per cent of the total), construction (13.2 per cent), wholesale and retail trade (12.1 per cent) and transport and storage (9.7 per cent). For females they were community services (37.8 per cent), wholesale and retail trade (19.7 per cent), manufacturing (18.1 per cent) and recreation, personal and other services (13.7 per cent).

SUMMARY OF FINDINGS - *continued*

DIAGRAM 2 - OCCUPATIONAL INJURIES: NATURE OF INJURY, QUEENSLAND, 1987-88

Just over 72 per cent of males injured were classified as tradesmen, production process workers or labourers. Only 22.8 per cent of females injured were in this category and a further 17.1 per cent were professional, technical and related workers and 13.4 per cent were sales workers.

#### Commuting Injuries

The number of injuries incurred on the journey to or from work increased 14.9 per cent between 1986-87 and 1987-88, to 2,303. In 1987-88, these injuries resulted in 22 deaths (up from 17 in 1986-87) and 26 cases of permanent disability (14 in 1986-87). However, most commuting injuries resulted in only temporary disabilities, the number reaching 2,255 in 1987-88 compared with 1,973 in 1986-87.

#### Occupational Diseases

Death resulted from occupational diseases for 32 persons in 1987-88, a considerable decrease on the 53 recorded for 1986-87. The number of cases of temporary disability from occupational diseases also declined significantly by 19.5 per cent to 906 in 1987-88. On the other hand, the number of permanent disability cases was relatively unchanged (1,334 in 1987-88 compared with 1,343 in 1986-87).

Deafness accounted for 58.1 per cent of occupational diseases in 1987-88.

Of males suffering occupational diseases in 1987-88, 73.5 per cent were tradesmen, production process workers and labourers whereas only 36.1 per cent of females were classified as such. Manufacturing establishments were the workplaces for 51.3 per cent of the males and 31.6 per cent of the females having occupational diseases.

## EXPLANATORY NOTES

## Introduction

Statistics of employment injuries shown in this publication were derived from reports of compensative accidents made available to the ABS by the Workers' Compensation Board of Queensland and the Queensland Police Department, and are compiled on the basis of the financial year in which the accident occurred.

## Scope of the Statistics

2. In Queensland, workers' compensation insurance is confined solely to the Workers' Compensation Board of Queensland which commenced operations on 1 July 1978. With policies issued under the *Workers' Compensation Act 1916-1988*, employers indemnify themselves against all sums for which, in respect of injuries to workers employed, they may become legally liable by way of compensation or damages in relation to that injury. Claims made on the Workers' Compensation Board of Queensland are the main source of information on compensative employment injuries.

3. Self-employed persons are not obliged to insure, hence accidents of a number of workers in primary industry and in the professions etc. are not recorded. Also members of the Australian Government Service, including Australia Post and Telecom Australia, are excluded by the provisions of the Act, and coverage is thereby restricted in the administrative and communications industries. Accidents of members of the Police Force, although excluded under the Act, are collected separately and are included in the tables.

4. The scope of the collection is limited to those compensated employment injuries causing death, permanent disability or temporary disability resulting in the absence of the injured person from work during the entire interval corresponding to the hours of his or her regular shift on any one or more calendar days subsequent to the date of the injury.

## Definitions

5. *Employment injuries* include occupational injuries, occupational diseases, commuting injuries and recess injuries as defined below.

6. *Occupational injuries* are injuries resulting from accidents arising out of, or in the course of, employment. In this context, the term accident refers to a traumatic event and includes those incurred in journeys on duty.

7. *Occupational diseases* are employment injuries resulting from repeated or long-term exposure to one or more hazardous events or agents, and employment injuries which result from a single traumatic event where there is a long latency period. Occupational diseases are classified to the three digit categories of the Ninth (1975) Revision of the World Health Organisation's International Classification of Diseases.

8. *Commuting injuries* are injuries resulting from accidents occurring while journeying to or from work while not on duty nor in a recess period.

9. *Recess injuries* are injuries resulting from accidents occurring during recess periods.

10. *Permanent disability* results from an injury or disease which does not cause death but results in the complete loss or loss of use of any member or any part of a member of the body, or any permanent impairment of functions of the body or part thereof. All permanent disabilities have been tabulated unless rejected for workers' compensation.

11. *Temporary disability* results from an injury or disease which does not cause death or permanent impairment but renders the injured person unable to perform a regularly established job during the entire time interval corresponding to the hours of a full regular shift. Temporary disabilities are only included in the tabulations if compensation commences within 6 months of the accident.

12. *Duration of temporary disability* refers to the number of calendar days lost rather than to the actual number of working days lost.

13. *Type of accident* is the event which directly resulted in the injury, i.e. the manner in which contact was made between the injured person and the object or substance causing the injury.

14. *Agency related to the accident* is the agency, i.e. working environment, production equipment, animal etc., which, because of its hazardous nature or condition, precipitated the event designated as the accident.

15. *Industry classification* is according to the Australian Standard Industrial Classification, 1983 Edition.

16. *Occupation classification* is according to the Classified List of Occupations, Revised November 1980.

17. *Bodily location of injury* refers to the part of the body injured. In most cases where there is a major and minor injury resulting from the accident, only the major location is coded. Multiple locations are coded only when there is a major injury to more than one location.

## Data Quality

18. ABS staff code forms supplied by the Workers' Compensation Board and the Police Department who complete them from documentation supplied by the employee, employer and examining medical people on the employment injuries. Information provided to the ABS can be deficient if complete information is not obtainable from the State agency.

19. In compiling the employment injuries statistics, the ABS employs a variety of quality control measures to ensure that the statistics are as reliable as possible. These measures include seeking further information where necessary from the Workers' Compensation Board or the Police Department, computer editing of data and checks on the aggregate statistical output for consistency and comparability.

20. Beyond what has been mentioned in paragraphs 1 to 4 above, there is an operational factor which reduces the coverage of employment injuries occurring in Queensland in a year. The ABS has a cutoff period for processing of

EXPLANATORY NOTES – *continued*

6 months after the end of the period to which the statistics refer. A special effort is made to ensure that all deaths which occurred during the year are included in the statistics, but in other cases the time taken for a claim to be accepted (or rejected) by the Board results in their exclusion from the annual statistics.

**Related Publications**

21. Users may also wish to refer to the following publications which are available on request:

- Employment Injuries, New South Wales* (6311.1) –  
Latest issue: 1986–87 (\$10.50)
- Industrial Accidents, South Australia* (6301.4) –  
Latest issue: 1986–87 (\$7.50)
- Industrial Accidents, Western Australia* (6301.5) –  
Final issue: 1987–88 (\$8.00)
- Employment Injuries, Tasmania* (6301.6) – Latest  
issue: 1987–88 (\$7.50)

22. Current publications produced by the ABS are listed in the *Catalogue of Publications and Products* (Catalogue No. 1101.0) and those produced by the Queensland Office are listed in *List of Publications* (Catalogue No. 1101.3). A *Publications Advice* (Catalogue No. 1105.0) is issued on Tuesdays and Fridays which lists publications to be released in the next few days. These publications are available from any ABS Office.

**Symbols and Other Usages**

- n.e.c. Not elsewhere classified.
- Nil or less than half the final digit shown.

## APPENDIX A

### DATA ITEMS AVAILABLE

#### Personal and Employment Details

Sex  
Age (derived from date of birth)  
Type of employment (permanent, permanent/casual, casual)  
Industry (Australian Industrial Classification: 4-digit level)  
Occupation (Australian Standard Classification of Occupations: 4-digit level)

#### Details of Accident and Injury

Place where injury occurred (Australian Standard Geographical Classification: SLA level)  
Type of occurrence (occupational injury, occupational disease, commuting injury, injury in recess period)  
Extent of disability (fatal, permanent or temporary disability)  
Nature of injury (fractures, sprains etc. – 24 categories)  
Nature of disease (International Classification of Diseases: 3-digit level)  
Bodily location of injury (neck, back etc. – 45 categories)  
Agency of accident (machinery, chemicals etc. – 167 categories)  
Type of accident (fall, over-exertion etc. – 32 categories)  
Calendar or working days lost (duration of temporary disability)  
Date of accident/death  
Time of day of accident  
Day of week of accident  
Month of occurrence of accident

## APPENDIX B

### UNPUBLISHED DATA

#### Table

#### Occupational Injuries

- 28 Industry group by bodily location of injury (fine level data) by sex, Queensland, 1987-88
- 29 Industry group by time of day by sex, Queensland, 1987-88
- 30 Occupation group by age group by sex, Queensland, 1987-88
- 32 Industry group (fine level data) by extent of disability and duration of temporary disability by sex, Queensland, 1987-88
- 34 Occupation group (fine level data) by extent of disability and duration of temporary disability, Queensland, 1987-88
- 36 Agency group (fine level data) by extent of disability and duration of temporary disability, Queensland, 1987-88
- 38 Industry group (fine level data) by nature of injury (fine level data), Queensland, 1987-88
- 40 Occupation group (fine level data) by nature of injury (fine level data), Queensland, 1987-88
- 42 Industry group (fine level data) by age group by sex, Queensland, 1987-88
- 46 Occupation group (fine level data) by month of occurrence by sex, Queensland, 1987-88

#### Occupational Diseases

- 31 Industry group by nature of disease (fine level data) by sex, Queensland, 1987-88
- 48 Industry group (fine level data) by extent of disability and duration of temporary disability by sex, Queensland, 1987-88
- 50 Occupation group (fine level data) by extent of disability and duration of temporary disability by sex, Queensland, 1987-88

#### Occupational Injuries (Temporary Disability of Seven Days or More)

- 62 Industry group by extent of disability and duration of temporary disability by sex, Queensland, 1987-88
- 63 Type of accident by extent of disability and duration of temporary disability by sex, Queensland, 1987-88
- 64 Agency related to accident by extent of disability and duration of temporary disability by sex, Queensland, 1987-88
- 65 Industry group by nature of injury and extent of disability by sex, Queensland, 1987-88
- 66 Industry group by bodily location of injury and extent of disability by sex, Queensland, 1987-88
- 67 Industry group (fine level data) by extent of disability and duration of temporary disability by sex, Queensland, 1987-88
